Company Profile

High-quality products for your bathroom: emco Bad is a manufacturer of high-quality and exclusive bathroom equipment and accessories in the premium segment, with a focus on functionality and exclusive design. The product range includes mixers, wash basins, accessories, mirrored cabinets, functional modules, illuminated and cosmetic mirrors.

emco Bad products are masterpieces which can be enjoyed day after day thanks to their high-quality design, well-made construction and a wide range of functions.

We have been developing and producing bathroom fittings in Lingen for more than 70 years so that people all over the world can design their bathrooms to suit their personal tastes and individual preferences. As a company with a strong family tradition, we like to establish close ties with the people we work with - and for.

Part of the emco group

emco Bad is part of the emco group in Germany who serves the market segments “architecture” and “worklife”. The company represents itself worldwide as a leader in the provision of tailor-made solutions that combine technology and design. In 1994, the Lingen-based company built factories in France and the Czech Republic, and in 1996 its first plant in China. In 2011, another plant followed in Turkey. The middle-sized family business encountered increasing competitive pressure in the international markets with optimization measures and investments in future-oriented projects.

Our Brands

From modest beginnings, the company developed into an international operation with four strong brands and a diverse product portfolio. Today, the emco Group has consolidated the emco brand with the emco bathroom equipment, emco building systems and under one roof as well as the brands Novus Dahle.

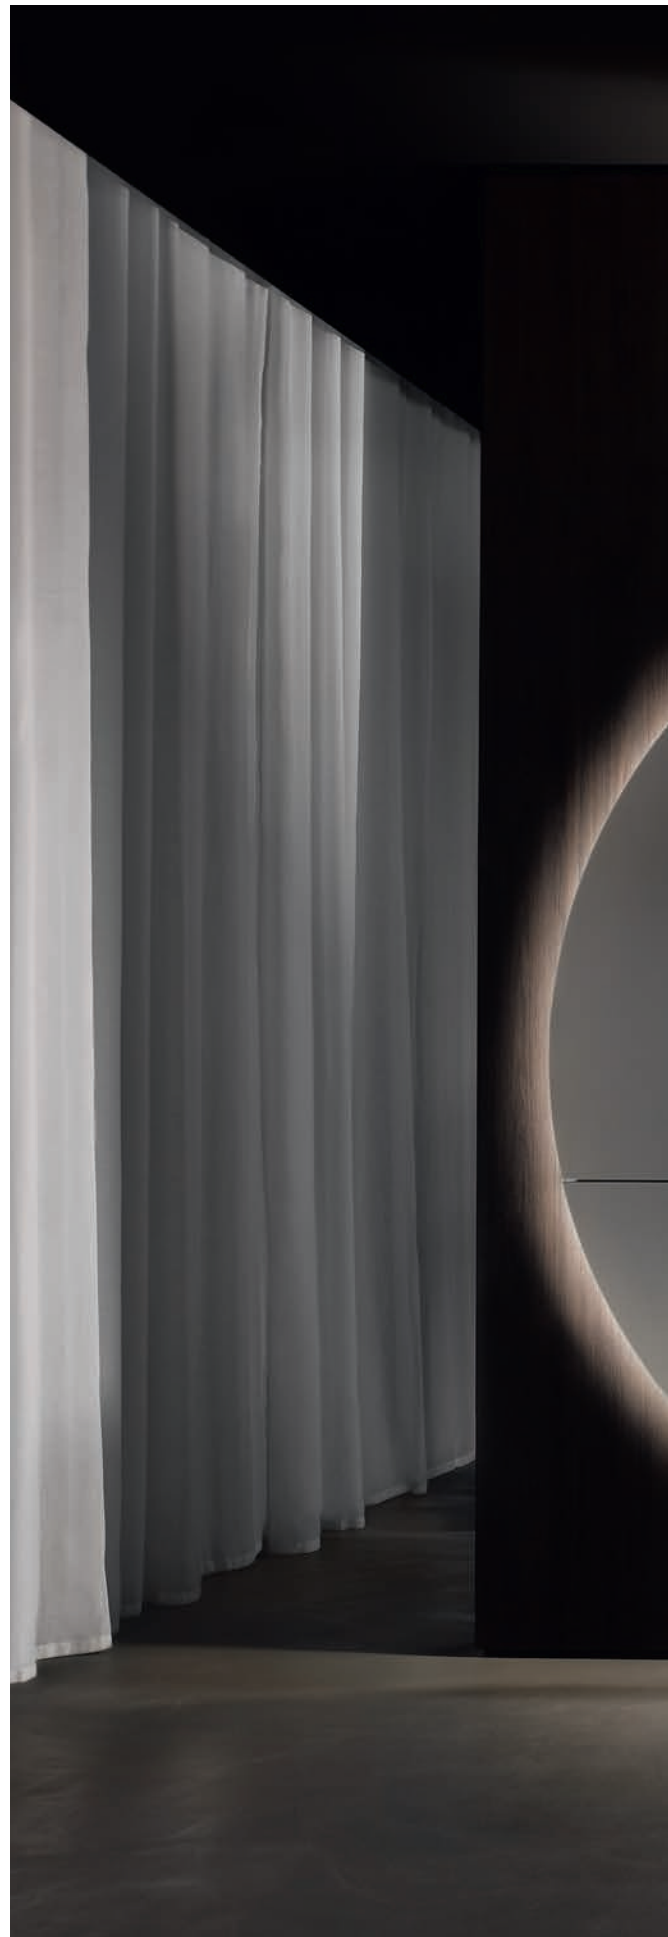

THE FACE

→ 2,000 mm mineral material washbasin in white with washstand base unit and two drawers in matt white or matt black, volume and temperature control via rotary tilt lever on the front of the washbasin (opt. in chrome or black), waterspout integrated in the mirror surface, optionally in chrome or black.

All-round LED-illuminated mirror, Ø 2,000 mm with three sensor buttons integrated in the mirror (on/off, infinitely variable control of light intensity and light colour by holding and setting of maximum and minimum values by tapping).

The washbasin combination The Face is available in other sizes. From a total width of 1,770 mm up to 2,083 mm in right- and left-hand versions and in the familiar surface finishes. All vanity units with a width of 800 mm and without washbasin above have an additional internal drawer for the many small bathroom utensils.

→ The Face, 2,000 mm, white matt.

THE FACE

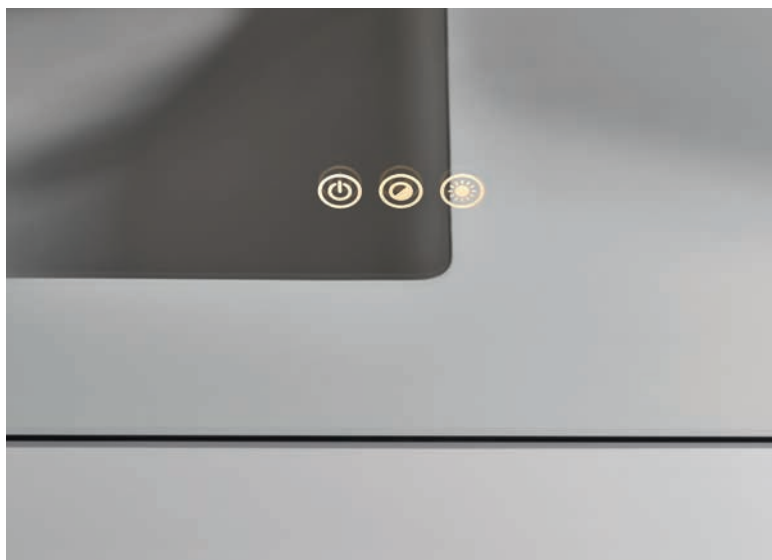

→ Handleless pull-out with tip-on technology.

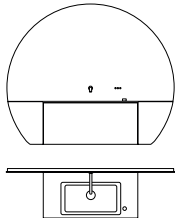

→ Tilt-and-turn lever for water quantity and temperature setting.

→ Intuitive light control in the mirror surface.

MIRROR CABINETS

→ **Centric** - a high-quality aluminium construction from 600 to 1.600 mm with mirrored doors on both sides, chrome-plated metal handles and all-round, energy-efficient LED lighting. The interior features a mirrored rear wall with two infinitely adjustable glass shelves made of clear crystal glass. Completed by two sockets and a touch control panel for the light with the functions on/off, infinitely variable adjustment of colour temperature and light intensity. All mirror cabinets are optionally available as surface-mounted or flush-mounted versions with a practical installation frame. IP 20.

Picture: Centric Washstand 1.200 mm and tall bathroom cabinets in optiwhite.

MIRROR CABINETS

→ Loft aluminium mirror cabinet with lower compartment, 1.000 mm

→ Pure 2 Design - aluminium mirror cabinet Pure2 Design, 800 mm.

→ Prime Facelift, Black Edition, aluminium mirror cabinet, flush-mounted, 1.200 mm and all-around LED Lighting

WASH STANDS

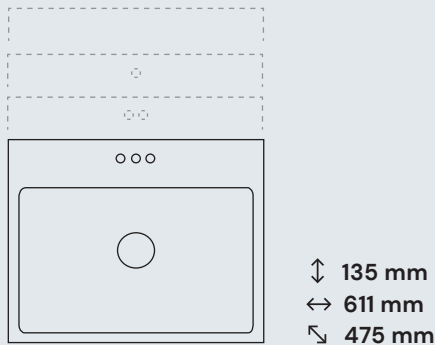

→ High-gloss white cast mineral washbasins with or without tap holes and central, round drain. Matching washstand base units in high-gloss white or high-gloss black lacquered MDF and glass front. With a front door in the 400 mm versions and generous drawers with soft-close in the 600 to 1,200 mm versions. Optionally also available with practical drawer insert in walnut look and a matching selection of purist, elegant washbasin fittings.

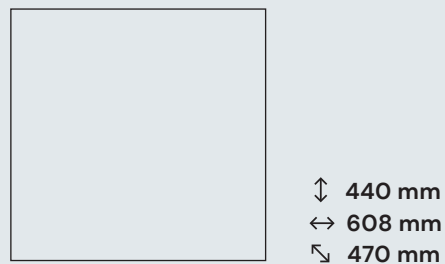

WASH STANDS

MIRRORS

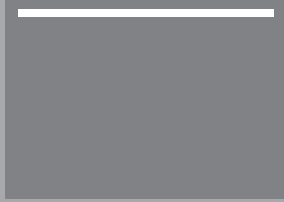

→ You have a choice of nine illuminated mirror series in over 1,000 different versions, all in tried-and-tested EMCO quality with high-quality mirror surface and energy-efficient LED technology. In addition to the models with concealed sensor switch that have been tried and tested over many years, you also have the option - with the new PLUS package - of an intuitive touch control panel with three sensors on the mirror surface, indirect wash place illumination and an anti-fog heating foil to prevent mirror surfaces from fogging up. Incidentally, both lighting controls include a memory function that switches the light back on exactly as it was set the last time it was used. With both control systems, both the light intensity and the light colour can be adjusted. And if you want it to be completely individual - configure your very own MI STYLE light mirror.
